Re Application No.09/745,827

Poul E.Hoegh.

Dear Sir,

I am gradually recovering from my open heart surgery and the four by-pass surgeries, though I am still quite ill. At my age of 86 it is not easy to recover from such major surgery. I have however managed to make enclosed response to my patent application per your kind instructions, and hope this will help get my patent through.

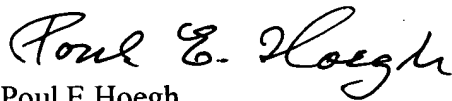

I have enclosed :

A set of clean copies of the patent text and the claims.

A set of marked up copies of the text and the claims, in which black brackets are added to show any added text to clarify the additions without adding any new matter.

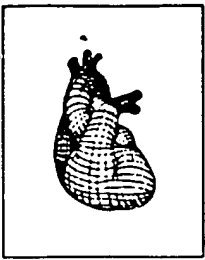

I thank you for your kind anticipated co-operation.

Very sincerely

Poul E.Hoegh.
